## MONSTER

BY

Shamen 

Planted 25-10-18  
Bagiseeds from 2017.

DAYS - 19

### History:

Used bagiseeds from 2017. Planted straight into garden; Planted on 25/10/18; First replant on 01/11/18 and Replant on 19/11/18 into a mix of 2 types of soil mixed with cow manure. On 22/11/18 started to give foliar feeding from after 7am and then again after 5pm. Gave additional  $\text{CO}_2$  supplement by means of a candle. And on 22/11/18 gave Epsom salts to open up the roots.

### "MONSTER"

#### BAGSEED 2017

Planted 25/10/18 = DAYS = 30

On 22/11/18 gave foliar feeding +  $\text{CO}_2$  supplement. Also gave 5ml of Epsom Salt.
